

This timeless wall lamp is available in five finishes: silver, copper, gold, brass and petrol. It is also available in a soberly chic black lacquered version, with reflectors in a soft shade of petrol or brass. Its inclined louvres conceal the light source, and create a very specific mood by reflecting the light downward. Very attractive when repeated along the length of a wall, it adds new style to your corridor or pathway. Also available in a dimmable version, it brings a touch of copper, gold or silver to your swimming pool area.

This luminaire is supplied ready to install, fully equipped with its cable, light source and wall cable plate. All our luminaires are manufactured, assembled and packaged at our Châtillon-sur-Saône factory plant in the Vosges region of France.
